Letter No nil dated 11th November 1943 from A Venkataram, Representative of D Gestetner (India) Ltd , Madras to the President City Municipal Council, Mysore and A R P Controller, Mysore City

Re Gestetner Duplicator in your office

I have inspected the machine Ream Model S No 106061 and I have to report that the machine was supplied to this office in July 1930 with our mechanical, guarantee for five years It has served 13 years and has taken nearly 1,400,000 copies as the counter records show

The machine is fairly worn out and both the main cylinders are loosened and most of the internal wheels should have also been in a condition of no replacement Supposing, we replace new parts to worn out parts the existing remaining old ones will naturally wear out early The back receiving tray is broken and the impression roller and feed fingers also are to be renewed To rebuild the machine is impracticable as at present the situation stands

Hence, as a special case, we can offer you a new ream machi at the Government of India Price of Rs 575/- net cash for your office and A R P work There are only very few machines available for supply to Air Institutions and as it is said the machine will be required for A R P work, we will try to get a machine released for you

This above offer is subject to our Head office sanctioning and the machine not being required by the Government of India, prior

Provided you place an order immediately, we will try to get released a machine and supply early
